

ORGEVIT

ORGEVIT

BASIC ORGANIC FERTILIZER

The optimal supply of nutrients and humus

ORGEVIT is a pleasantly priced organic fertilizer in pellets (4–5 mm) which is particularly suitable for fertilizing horticultural and agricultural crops, strawberries, fruit trees and vineyards.

ORGEVIT is an organic fertilizer produced from chicken manure. In addition to organic matter it contains all essential nutrients from natural origin only.

ORGEVIT has a high content of organic matter which is essential for the maintenance of soil fertility. The organic matter also improves the moisture retaining capacity of the soil.

ORGEVIT stimulates the soil activity and improves the structure of the soil. It gradually releases its nutrients during the growing season of the plant. This prevents nitrogen from leaching.

ORGEVIT: net N-mineralisation

Presentation

ORGEVIT is supplied in pellets of 4–5 mm. The pellets dissolve well when in contact with soil or moisture.

Because of its stable quality and high dry matter content the **ORGEVIT** pellets keep well. Advanced production techniques guarantee an optimum and constant quality.

ORGEVIT is free of pathogens and weed seeds. It is pH neutral and contains very little chlorine.

ORGEVIT

BASIC ORGANIC FERTILIZER

Average analysis

Dry matter	90 %
Organic matter	65 %
Nitrogen (N) total	4.0 %
<i>Nitrogen (N) organic:</i>	3.6 %
Phosphate (P ₂ O ₅)	3.0 %
Potassium (K ₂ O)	2.5 %
Magnesium (MgO)	1.0 %
Sulphur (S)	1.0 %
Calcium (CaO)	9.0 %
pH:	7
C/N:	9

- rich in trace elements: Fe, Mn, B, Mo, Zn, Cu
- free of chemical additives
- low chlorine content

Dosage

	kg/ha
■ Vegetables – open field	1.000 – 3.000
■ Vegetables – glass houses	2.000 – 3.000
■ Fruit trees	1.500 – 3.000
■ Soft fruit	1.500 – 2.500
■ Strawberries	1.000 – 1.500
■ Citrus	1.500 – 3.000
■ Wine growing	1.000 – 2.000
■ Flowers	1.500 – 2.500
■ Tree nurseries	1.000 – 2.000
■ Potatoes	2.000 – 3.000
■ Lawns and sports turf	1.000 – 1.500

The fertilizer dosage depends on the crop, the type of soil and its nutrient and organic matter content and climate conditions.

ORGEVIT can be applied by fertilizer spreader or by hand.

Prior to sowing / planting:

- Apply pellets ca. 10 days before
- Work pellets in properly and water thoroughly

Use in planted areas:

- Top or row fertilization: 15–20 cm from the roots of the plant
- Apply pellets before rain or water in after spreading
